

Audio Processor Bass/Treble 4-IN 1-OUT 28-Pin SO

Manufacturer:	STMicroelectronics, Inc
Package/Case:	SOP28
Product Type:	Embedded Processors & Controllers
RoHS:	RoHS Compliant/Lead free 
Lifecycle:	Obsolete

General Description

TDA7468D is a digital volume and tone control IC (Integrated Circuit) produced by STMicroelectronics. It is designed for use in audio applications and provides a complete solution for volume and tone control in one package.

Key Features

- 4 independent source inputs
- 2-band tone control (bass and treble)
- Loudness function
- Soft step volume control with mute function
- I2C bus interface
- Low distortion and noise
- Low crosstalk

Application

- Audio systems for cars, home theaters, and multimedia devices
- Headphone amplifiers
- Public address systems
- Professional audio equipment
- Musical instruments
